

A message from Kathy Smith

This weekend is our final Starlight Cinema and we are showing "Home" by DreamWorks. It has been a great month for the Starlight Cinema again this year with thousands in aggregate attendance so far. Our office has partnered with the Park Authority to bring this family friendly event to western Fairfax. Thanks to all of our sponsors who have helped make this event a reality!

At the September Board of Supervisors meeting we will be taking up some changes to the Residential Conservation district zoning- and I've put more information below in the newsletter about the proposal that has come from the Planning Commission. I would like to hear your feedback, please just reply to this email to let me know your thoughts. This will be a public hearing process so you can also sign up to speak to the entire Board about these changes on September 20th.

Only 11 days until Fairfax County Public Schools are back in session!

Animal Shelter Corner

It's easy to feel sorry for Buddy when you see just how overweight this poor guy is and how hard it is for him to get around at times. But all you have to do is take him for a short walk, give him some ear and butt scratches, and let him shower you in doggy kisses to see that he doesn't want you to feel sorry for him - he wants you to see what a warm, wonderful, happy boy he is! He loves going for walks and playing, he gets along well with other calm dogs, and he has won over the hearts of our staff and volunteers. We can't

wait to find him a nurturing home where he can get regular exercise to shed that extra weight and live a happy life well into his golden years.

Changes to the Residential Conservation District

The Planning Commission voted last month to recommend that the Board of Supervisors amend the zoning ordinance to read as follows: (1) Allow a lot to be created in the R-C District that complies with the R-C District regulations and other applicable regulations, and such lot may be used for any use permitted in the R-C District pursuant to a Building Permit, provided that all such lots, except for lots designated as open space or lots developed under the cluster provisions requiring special exception approval from the Board of Supervisors (Board), shall have a shape factor of less than or equal to 35, or lots with a shape factor greater than 35 but less than 50 may be permitted with special exception approval by the Board of Supervisors. (2) When a lot is subject to a lot width waiver special exception approved by the Board, exclude the pipestem portion of such lot from the shape factor requirement. (3) Allow a minor adjustment of lot lines between corner lots and contiguous lots when such lots do not meet the current minimum district size, lot area, lot width and/or shape factor requirements of the zoning district in which located, but such lots met the requirements of the Zoning Ordinance in effect at the time of recordation, provided that the reconfigured lots contain either the same lot area as existed prior to the adjustment of the lot lines or a greater area than existed prior to the adjustment of lot lines which results in a reduced number of lots. Such minor adjustment of lot line between corner lots and contiguous lots may change the road frontage or orientation of the lot, provided that there shall be no additional lots or outlots created, the number of lots that does not comply with the current minimum lot width requirement shall not be increased, and the amount of lot width noncompliance shall not be aggravated. In addition, such adjustment of lot lines shall not create or aggravate any existing noncompliance with regard to minimum lot area, shape factor or minimum yard requirements. (4) Allow the maximum building height for single family detached dwellings to be increased [ranging from the current 35 feet up to a maximum of 45 feet] in the R-C, R-E and R-1 Districts, provided a minimum required yard of [ranging from 40 to 60 feet] is maintained from all lot lines for any dwelling with a height greater than 35 feet.

You can [click here](#) to review the Planning Commission hearing. The Board of Supervisors will be having a public hearing on the amendment on September 20. You can submit your comments by replying to this email or attending the hearing.
