Supervisor Cook made a motion to approve the County Executive's recommendation to pursue a loan relating to the recommended strategy and financing plan for the dredging of Lake Accotink through the Virginia Resources Authority's (VRA) Virginia Clean Water Revolving Loan Fund (VCWRLF). The motion carried by a vote of 9, with Supervisor Linda Smyth absent.

Background:

Lake Accotink Park is a 493-acre public park owned and operated by the Fairfax County Park Authority located at 7500 Accotink Park Road in Springfield. The main portion of the park is located in the Braddock District with parts of the park overlapping with the Lee and Springfield Districts. The focal point of the park is the 55-acre lake surrounded by managed conservation areas, wetlands, deciduous and evergreen forests, and historic and pre-historic sites.

The lake itself is fed by approximately 60 miles of streams that comprise approximately 30 square miles of the Accotink Creek Watershed. Sediment from the upstream areas of the watershed has continued to be deposited in Lake Accotink over the years filling in the lake and limiting recreational use of the lake. The lake has been dredged two times since 1985 to remove accumulated sediment. The current estimated average depth of the lake is four feet and will continue to decrease over time without interventions.
